 - 9.3 Management review**

- 10** **Continual improvement**
- 10.1** **Nonconformity and corrective action**
- 10.2** **Improvement**

Annex A Quality management principles (Informative)

Bibliography

Attention IAQG AATT Training Providers:

Due to the pending release of the 9101E/9101:2014 standard, IAQG OPMT has directed that all AATT 9100, 9110, and 9120 classes and examinations not currently in progress or committed be suspended so that the training programs can be reviewed and revised. This suspension is needed because the current AATT material must be updated to incorporate the 9101 changes. An IAQG OPMT resolution will be forthcoming, however in order to move forward in an expeditious manner, please note the following suspension schedule:

Suspension of Online Sale and Scheduling of Current 9100/9110/9120 Online Training Courses/Final Examinations and Bundles:

March 7, 2014

Suspension of Current 9100/9110 Classroom Training and proctoring of 9120 Final Examinations by all Training Providers:

March 15, 2014

Suspension of Current 9100/9110/9120 Retake Examinations:* March 7, 2015

*** Auditors currently in the Retake Examination process will have approximately one (1) year to complete the necessary examinations. It will not be possible to complete examinations or retakes for the current programs after the indicated suspension date.**

Training Providers are encouraged to promptly submit all necessary session documentation to ensure prospective auditors can complete any necessary retakes in the time allotted.

Prospective auditors who have not successfully completed the associated course requirements by the deadline, or who exceed the maximum number of permitted retakes, will be required to follow the revised training process as a new participant. Details of the process for new prospective 9100/9110/9120 auditors will be made available at a later date. All auditors who have successfully completed the AATT 9100 program will be eligible to complete 9101E Revision Training. More information about this online training will be released shortly. It is expected that courses will be available again with revised materials within three to six months.

Any TP who has an AATT class after the suspension date that is “in progress or committed” shall advise the IAQG OPMT with relevant information of such training programs so the OPMT is fully aware of any courses taking place after the suspension date. Failure to notify OPMT of these classes prior to the suspension date will result in the course’s removal from the AATT website. All participants for these sessions must complete the online purchase and scheduling process prior to the March 7, 2014 deadline. Participants must complete the 9101E/9101:2014 Revision Training to receive a 9101E/9101:2014 Training certificate (i.e. even under circumstances where a TP seeks and is approved for Special Dispensation during the suspension period).

Notwithstanding the above, no Training Course can be offered using the existing training material once it has been suspended. Should a TP identify a special need for a new AATT class, then ? with the agreement of their SMS ? the TP shall submit a request to the IAQG OPMT for a special dispensation to run such a course. As above, students shall be required to complete the online 9101E/9101:2014 Revision Training prior to receiving a 9101E/9101:2014 Training certificate.
